

Dear Residents,

To ensure the enjoyment and safety of the playground and basketball court located in Pleasant View Village, please note that the following policy will be implemented.

A lock has been installed on the main gate accessing the playground and basketball court. The other access points will remain locked at all times. A code to open the lock is listed below. This code is to be shared only with the residents of Pleasant View Village. Residents should accompany guests. The gate code should not be provided to non-residents. The gate code will be periodically changed. New codes will be mailed and emailed to property owners with advance notice to allow proper notification.

Enclosed in this package is a wristband. Please note that residents must be wearing a wristband while using the facilities. If an adult is accompanying small children, the adult should be wearing a wristband. Should you need additional or replacement wrist bands, please contact me.

Residents are responsible for their guests. Accessing the playground or court by any means other than using the gate code (i.e., fence jumping, etc) will be considered a violation and thus a loss of privileges may occur.

Property Owners should notify their tenants of the new policy and subsequent gate code changes immediately. The responsibility of tenant notification is solely that of the property owner (not the Pleasant View Village HOA nor Paragon Management).

Should you have any questions or concerns, please contact me.

Sincerely,
Nathan Reed

GATE CODE: 2264
